

A decorative border of human icons surrounds the text. The icons are arranged in a grid-like pattern, with 15 icons in each of the four corners and a single row of 15 icons along each of the four sides.

## WJC Networking Group

# Home Office Networking 101

*Set up your home office to be reliable and secure.*

**Thursday, April 8, 2010 at 8:00pm  
(following evening services at 7:30pm)**

More and more people use their home computers for work-related purposes. But without your own IT Department how do you know if you're safe and secure? Our very own **Larry Thaler** will provide basic tips for setting up your home network for small business purposes and will illustrate how to maximize your computer's usefulness and reliability.

**Larry will help you turn your home computer  
into a productive tool for your business.**

***Who should attend:*** Anybody who wants to use your home computer for business: from telecommuters and small, home-based businesses to professionals taking a day off at home and those who are job hunting. We gain strength from the support and information from fellow neighbors, friends and congregants.

**This program is open to all.  
Free of charge.**

The WJC Brotherhood has established the WJC Networking Group to promote networking, share ideas, circulate leads, provide encouragement, and support.

For more information or to get involved, please contact the  
Networking Group Committee at [networking@wjcenter.org](mailto:networking@wjcenter.org)
